

K-LOVE is a blessing. It sets my attitude for my morning commute to work. The music brings calm to to an otherwise hectic drive.

Many of us here in our growing community listen to K-LOVE. The stories of encouragement bring hope where there is despair, resolution where there is doubt and provide a positive listening environment for the whole family.

I believe the public truly needs the services provided by K-LOVE. They lift us spiritually, give us immediate access to pastors that can advise us on family matters and minister to those who may have thoughts of suicide. Please ensure stays on the air.
